

# The silent motor for indoors.

**SPIN and SPIN RX**  
elegance and performance designed for Zip and Screen.

#EXPECTMORE

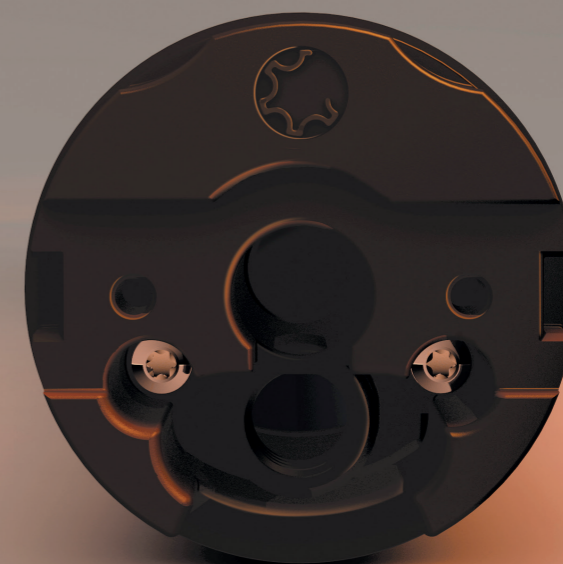

**CHERUBINI**

# Movement without the noise.

Discover Spin and Spin RX, the tubular motor ranges with silent brake for Screens, Zips and technical blinds.

Designed for ease of installation, Spin features a round tube diameter head and a front connector for easy rewinding of Screens and Zips. Available with either standard wired electronic connection (Spin series) or radio connection with white wire (Spin RX series).

The comfort of a silent motor for the perfect automation of interior solar shading.

## Designed to disappear.

The Spin and Spin RX tubular motors have a diameter of 45 mm and a silent gearbox designed for use in Screens and Zips. The aim is to provide a motor that can disappear from sight to enhance interior design and from sound to increase well-being in daily use.

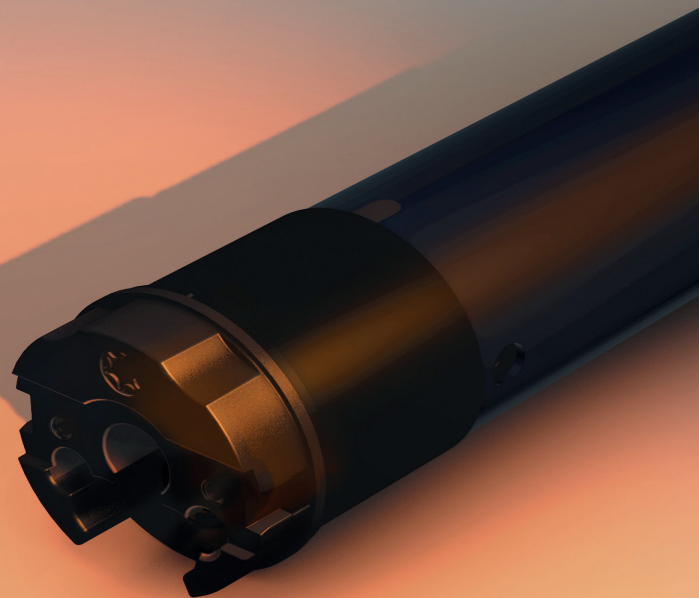

Quiet  
well-being.

Technology, ease of use for installers and end users, reliability and the added value of acoustic comfort. The Spin and Spin RX motors allow the ideal movement of sunscreens in any type of interior.

Privacy, temperature control and energy saving come together in living comfort, allowing blinds, Screens and Zips to be controlled at the touch of a button.

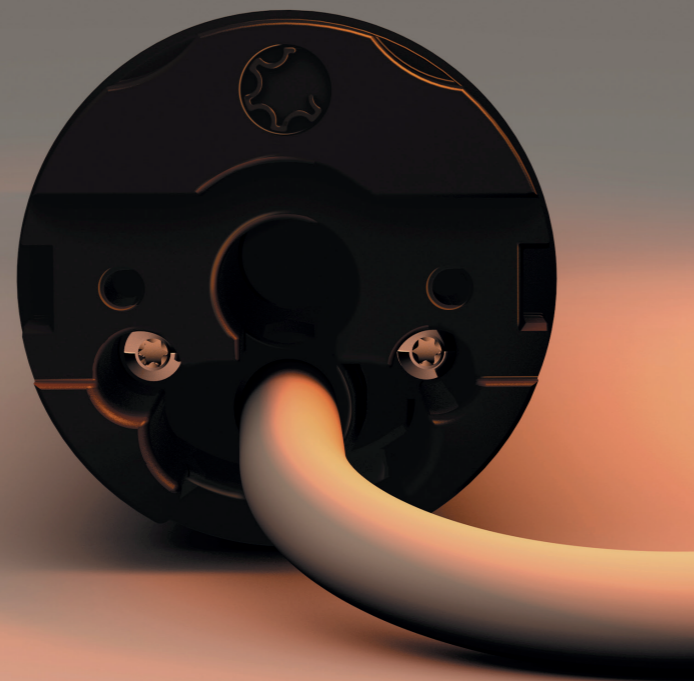

**At home or in the office,  
the comfort of silence.  
Thanks to the high acoustic  
performance of the new  
brake.**

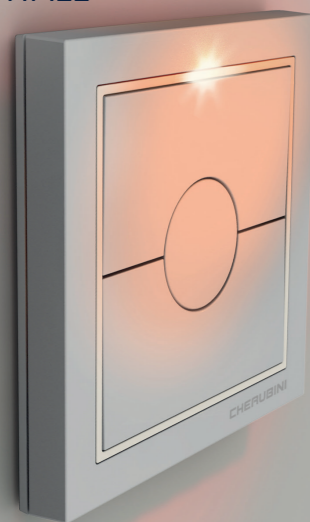

# Technical data.

## Specific functions:

- “Super-sensitivity” function on obstacle detection, set by remote control, setting on 3 levels possible, especially for screens and mosquito blinds.
- Mechanical stop during closing.
- Possibility of memorising an intermediate position.
- Setting possible with remote control or wired switch.
